November 8th , 2017, the Northeast Asia Logistics Information Service Network (NEAL-NET) 22nd technical meeting was held in Hangzhou, China. Relevant government officials and technical experts from China, Japan and South Korea, as well as international expert from IPCSA, Port Antwerp, Port Abu Dhabi and Port Klang attended the meeting.

At the meeting, China, Japan and Korea discussed the new ports in 2017. The three countries will finish the test release of eight ports which are Beihai, Qinzhou, Fangcheng, Zhuhai, Hirasawa, Ulsan, Niigata and Yokkaichi by the end of December this year . In order to further promote cross-border logistics information sharing, China Invited International Port Community System Association (IPCSA) and Port Antwerp, Port Abu Dhabi, Port Klang

to participate the technical meeting. In the meeting, international experts shared information on multimodal transport and DGM in Europe, and introduced Port Klang Net. The meeting laid the foundation for the future cooperation between NEAL-NET and Europe, Middle East and Southeast Asia. At the same time, in order to improve the service level of NEAL-NET, the experts of the three countries jointly summarized and analyzed the questionnaire survey carried out in the previous period. The plan for the future is to further improve the existing service quality of NEAL-NET by simplifying and improving the NEAL-NET interconnection interface and standards, to explore the cooperation with Europe, Southeast Asia and the Middle East to expand port coverage for the construction and development of NEAL-NET.

At the end of the conference, the meeting decided the 23rd NEAL-NET technical meeting will be held in March 2018 in Japan.
