

The 7th Technical Meeting of NEAL-NET was Held in Tokyo Japan

The 7th Technical Meeting of NEAL-NET was held in Tokyo Japan, from January 9 to 11 , 2013. During the meeting, the experts from China, Japan and Korea were focused on the procedure and technology framework of NEAL-NET unified user management and authentication, the extending progress of port information sharing services, and the NEAL-NET work plan for 2013.

For the user management and authentication :

Experts from China, Japan and Korea introduced their technical proposals separately. After discussion, China's proposal which based on SAML technology was accepted by the Three Countries. The Three Countries agreed to jointly speed up technical research after the meeting, and try to complete the system specification for development during not later than the 8th technical meeting.

For extending port information sharing services:

In 2012, China extended 8 ports which included Tianjin Port, Yingkou Port, Yantai Port, Rizhao Port, Shekou Port, Weihai Port, Qingdao Port and Lianyungang Port. Japan extended 3 ports which included Kawasaki Port, Osaka Port and Kobe Port. Korea

extended 2 ports which included Gwangyang Port and Incheon Port. The Three Countries agreed to announce the dynamic vessel status information sharing service of those ports together in the early of 2013. In addition, the Three Countries agreed to announce domestic container status information sharing service in February 2013, and each country will inviting 2-3 enterprises to use and evaluate the services.

About 2013 work plan:

Three sides confirmed the extending, promotion and pilot plan of vessel status information sharing service and container status information sharing service in 2013, and discussed the content and plan of research work and international cooperation. The Three Countries jointly agreed to carry out the research on domestic surface transport standard respectively, such like road, railway, etc., also the requirements of status visibility. The research results will be shared and discussed on the next technical meeting. Meanwhile, the Three Countries highly agreed that APEC cooperation framework has important influence for NEAL-NET promotion and agree to start the preparing work for APEC project application, to promote NEAL-NET under the APEC framework.

The Three Countries agreed that the 8th technical meeting of NEAL-NET will be held in June 2013 in Korea.
