

The 6th Technical Meeting of NEAL-NET Held in Beijing

The 6th Technical Meeting of NEAL-NET was held in Beijing on June 6-7. Twenty-five technical representatives from Department of Science and Technology of Ministry of Transport of the People's Republic of China(MOT), Bureau of Waterborne Transport of MOT, Research Institute of Highway of Ministry of Transport(RIOH), China Waterborne Transport Research Institute(WTI), GS1 China, Ningbo Port Co. Ltd., COSCO Logistics Co. Ltd, Road Transport Administration Bureau of Zhejiang Province, Zhejiang Electronic Port, Ministry of Land Infrastructure Transport and Tourism of Japan, Romura Research Institute, Korea Maritime Institute, and Hyundai U&I Corporation of Korea and other organizations attended this conference.

The main content of this meeting include:

- 1, Each country introduced the port extension progress of dynamic container vessel status information sharing service in each country. Japan officially confirmed Kawasaki

Port, Osaka Port and Kobe Port to be newly added as pilot ports before the end of CY 2012.

2, International cooperation progresses with other countries or organizations as well as respective next-step plans were mutually informed.

3, Standard of container status information sharing was defined.

4, Issues on user management, registration and authentication were discussed.

This meeting was an important milestone to promote NEAL-NET construction based on work schedule after the 5th Technical Meeting of NEAL-NET which was held in Jeju in March. The next meeting will be held in Japan.
